STRATEGIC PROPOSAL

SCOPES Health Revenue Growth Ecosystem

An Integrated Marketing & Business Development Framework

PREPARED FOR
SCOPES Health Leadership Team

POSITION TARGET
Marketing & BD Coordinator

GEOGRAPHY FOCUS
Southern California (SoCal)

Executive Summary

STRATEGIC OVERVIEW

THE CORE CHALLENGE

Fragmented Referral Acquisition

SCOPES Health relies on consistent, trust-driven referral partnerships with Personal Injury (PI) law firms. Traditional outreach is often unstructured, lacking predictable systemization to move leads from initial cold contact to active, repeating referral partners.

THE PROPOSED SOLUTION

Unified Growth Ecosystem

Integrating modern B2B lead generation, a metrics-driven marketing funnel, structured outbound sales, and programmatic relationship management into a single, scalable CRM-powered platform.

The Value Stream Journey

1. Multi-Channel Lead Sourcing
Precision targeting of high-value SoCal PI firms & personnel

2. Predictive Lead Qualification
Data-driven scoring separating low-intent cold lists from warm opportunities

3. Strategic Partnership Conversion
Structured onboarding to establish reliable, lifelong referral flow

Market Strategy & Ideal Personas

THE BLUEPRINT

UNIQUE VALUE PROPOSITION (UVP)

SCOPES Health delivers objective, board-certified interventional pain diagnostics & minimally invasive, opioid-free procedures. This establishes flawless, scientifically sound medical evidence crucial for maximizing Personal Injury claim recoveries.

GEOGRAPHIC TARGET

Southern California (SoCal)

Bakersfield, Sherman Oaks, Los Angeles

PI Attorneys & Owners

Firm Decision-Makers

Focused on clinical results, high-credibility reporting, and seamless lien handling.

Case Managers

Pipeline Facilitators

Needs lightning-fast patient scheduling, transparent coordination, and immediate records.

Treatment Coords

Care Linkages

Relies on clear referral processes and direct access to double board-certified clinical specialists.

Lien Negotiators

Financial Close

Wants compliant billing, predictable protocols, and collaborative final bill negotiation.

The Unified Revenue Growth Ecosystem

VISUAL ENGINE

This master framework integrates and automates the entire revenue-generating sequence. Raw market opportunities are dynamically acquired, validated, and converted into loyal, long-term clinical referral partners.

Feedback Loop: Marketing Analytics feed back into Lead Gen data quality to continuously sharpen target profiling.

Multi-Channel Lead Sourcing

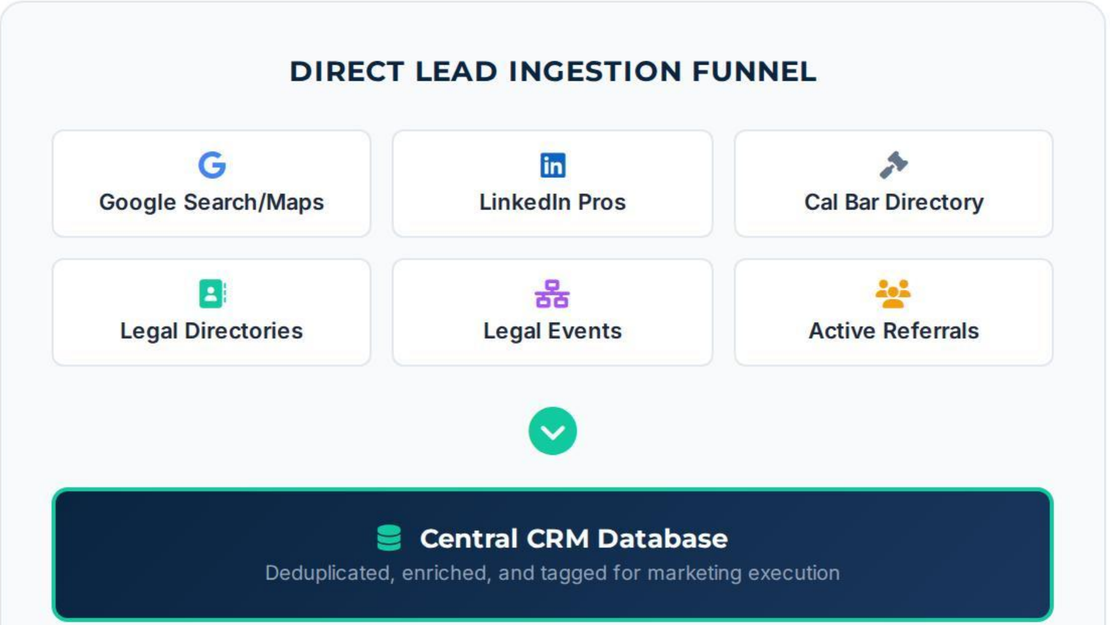

PIPELINE SOURCING

DATA HARVESTING

Consolidating SoCal PI Leads

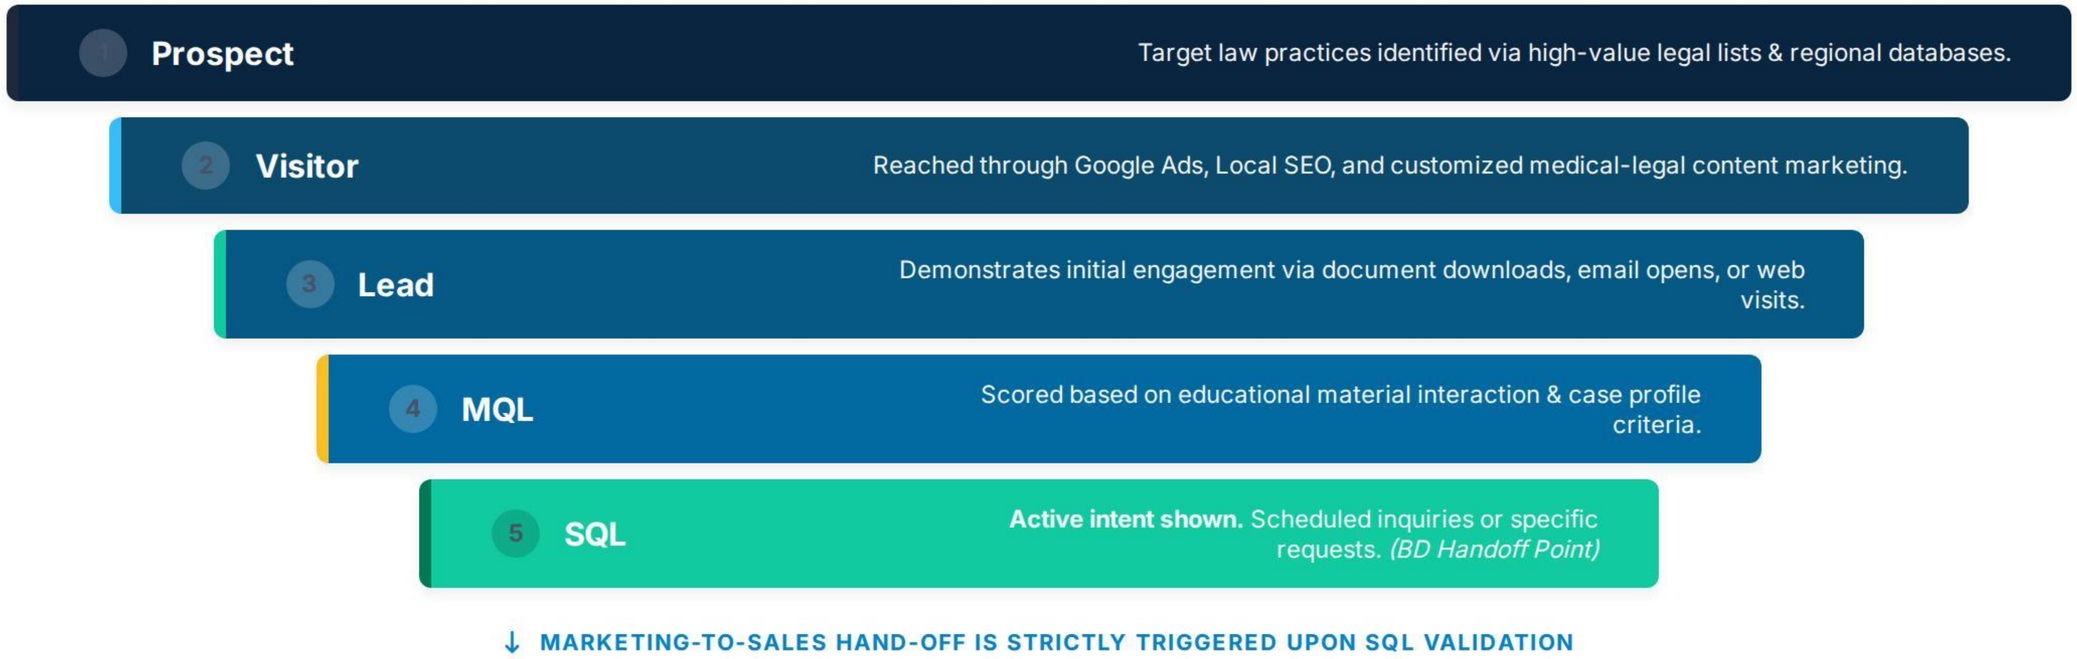

We tap into diverse digital, legal, and organic networks to identify and index premium law firms. All incoming data streams are normalized, filtered for minimum suitability, and systematically mapped into the central CRM directory.

Target Density: Primary focus rests on geographic clusters with high traffic incident rates in Los Angeles, Sherman Oaks, and Kern County (Bakersfield).

SCORING FRAMEWORK

Multi-Dimensional Rating

To protect valuable sales hours, leads are automatically prioritized using composite values dynamically adjusted inside our CRM suite.

Fit Score (Firm Firmographics)
Firm size, SoCal focus, litigation frequency, PI specialty match.

Engagement Score (Digital Actions)
Email opens, case study clicks, landing page navigation sessions.

Intent Score (Active Direct Signals)
Direct outbound replies, contact forms, specific schedule page views.

BEHAVIORAL WEIGHT MATRIX

Action / Touchpoint	Impact Category	Points
Meeting Request Form Submit	High Intent	+50
Referral Form Page View	Med Intent	+30
Case Study Download	Education	+15
Outbound Email Click	Interests	+10
No Activity (Weekly Decay)	Time Decay	-15

Outbound Sales Pipeline

CONVERSION CYCLE

Sales Hand-off Paradigm: Direct active outreach starts precisely where inbound marketing ends.

MQL TO SQL COMPLETE

Engagement Phase

1. Contacted (First Outreach)

Multi-channel touchpoints across phone, custom video messages & cold mail.

2. Engaged (Active Discussions)

Value proposition pitching regarding diagnostic clarity and patient onboarding speed.

3. Discovery Meeting

Reviewing firm case volume, current provider networks, and lien process expectations.

Commitment Phase

4. Partnership Discussion

Formal review of lien medical agreements, reporting timelines, and compliance.

5. Referral Partner

Initial onboarding complete; educational clinical folders and scheduling tools sent.

6. Active Referral Partner

Reliable pipeline established with automated feedback updates at every case milestone.
